

THEN & NOW

Roman Flipbook

DIRECTIONS: Use the internet and other resources to find examples in each of these categories of Roman achievements, innovations, or inventions that we still use today. Once you have gathered your research, you should make a flipbook to creatively display the information. Your book should include the following:

- A **color** cover page with a clever title.
- 5 pages, each highlighting one category with its modern examples.
- Each page should have between 1-3 visuals and one sentence for each drawing explaining how we are still influenced by your example.
 - 3 visuals per page = A
 - 2 visuals per page = B
 - 1 visual per page = C

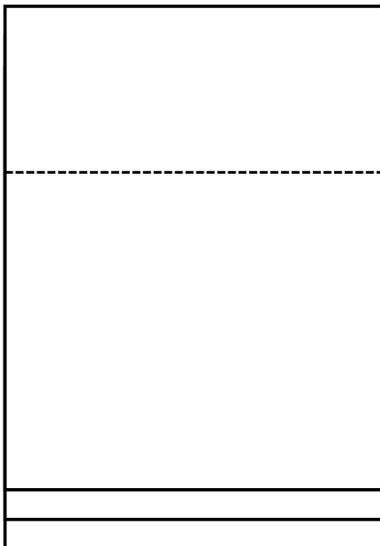

CATEGORIES

- *Language
- *Government/Law
- *Entertainment

- * Inventions
- * Architecture/Art

Assembling Your Flipbook:

Line up 3 (legal size) pieces of paper as shown:

Fold so the book has 6 pages:
